

Greenfield Conservation Commission (GCC)

Meeting Minutes

April 8, 2024

Recorded by Karen Day

Members Attending: Karen Day, chair, Tom Bregani, Brenda Gollihue, and Candi Fowler

7:04 pm Karen called the meeting to order.

Approve or Amend previous meeting minutes: tabled until next regular meeting on the 24th

Karen explained that we are having this special meeting to address an expenditure for the trail project we've been working on.

Helaine Hughes offered to have her crew pick up the metal junk at the parking lot trail site. Since they have been throwing all the metal they have been finding into one place, she felt that it would be easy for her crew to throw it into a dumpster if we could provide one. She reasoned that the metal pieces already have the poison ivy oil on them and it would save us from having any contact with it.

Karen is willing to contact Monadnock Disposal to see if we could get a dumpster delivered for the next time Helaine's crew will be here probably April 25 and 26.

While we do not know the actual cost right now, we would need to approve the expenditure right away so that it would be possible to get the dumpster in time.

After a short discussion, Candi motioned to approve the expenditure and have Karen order the dumpster. The motion passed unanimously.

Tom brought up the Forest Committee and said they wanted to have a meeting soon. Brenda said that she no longer has time to do this and hoped that Candi would do it. Candi said she would and Karen will let the Town Clerk know that Candi needs to be appointed for that position.

The meeting adjourned at 7:30 pm.
