

The Greenfield Community Meeting House Restoration

✚ This Information provided by:
Friends of the Greenfield Community Meeting House, and
The Greenfield Select Board March 22, 2023

Key elements to the restoration of the Meeting House

- Preserve the integrity of the Meeting House as a Community resource.
- Site Plan upgrades for better parking, new ramp and stairs, bandstand, and better connection to the Town Green.
- Upgrade Mechanical and Electrical Systems.
- Create a plan that allows greater flexibility of all three floors.
- Create a plan that allows multiple function to occur with overlapping schedules.
- Install new windows at the second floor for energy efficiency and reinstall the existing.
- Stain glass windows on movable frames to allow them to slide over the new windows.
- Install a new elevator to serve all three floors.
- Complete renovation of the basement level with new commercial kitchen.
- Update all life safety systems in the building.
- The addition of a back stair to meet code and create greater flexibility in the use of the three floors.
- Remove existing pews to allow greater flexibility of the upper floor for yoga, Pilates, and dance events.
- New seating equipment at the upper floor for church services, wedding, funerals, lectures and movie nights.
- Access to Bathrooms during "Music on the Commons".
- New Technology capabilities.
- Connect to Town Sewer.
