7:00 pm Review Proposes for Open Space Amendments

MParker went over some history of Open Space as it was created to attract builders. The planning board went over the math break downs for additional dwelling units and what the proposal, if amended, would look like. It was determined that, if the planning board wants to move forward, they pick a few lots and do some mock sketches to get an idea of what open space could look like. The planning board will take a look at 10 acre and larger lots and work on this over the summer.

MParker suggested that the planning board impose an impact fee which was passed several years ago but has not been enacted. Mike Borden would collect this starting at the building permit process.

Action Items:

DThimmel & BSmith will work on the excavation project and business concerns. **MParker** will work on researching the impact fee.

GRainier has started work on lot definitions. This will be worked on at the next meeting.

8:15 pm NZotto motioned to adjourn. Seconded by RWalling. Motion passed 7-0-0.
