

Greenfield Planning Board  
Site Walk Preliminary Minutes  
Recorded by Michelle Hall  
August 1, 2019

**Members Attending:** Mason Parker, Neal Brown, Ken Paulsen

**4:30 pm Site Walk at home of Wendy Durrett of 637 Forest Rd.**

**WDurrett** showed the building where she intends to have the animal rescue. She pointed out existing external lighting and showed the locations of proposed lighting. **WDurrett** showed the planning board the space where the animals would be housed during their stay. She went on to explain that 3-5 cats would be housed in the rear of the building and 3-5 dogs would be housed in stall type kennels to the front of the building. **WDurrett** showed the exterior of the building where the proposed fenced in area would be located. This area will be kept with dirt and grass. The site walk ended back in the driveway where **WDurrett** showed the private dumpster which currently is used to dispose of the animal waste. The dumpster had no noticeable smell, additionally it has preventive dumpster fly traps. The driveway is paved and can accommodate about five vehicles at a time.

**5:00 pm Site Walk adjourned.**
