- EMD Martin responded directly to a recent call and got there before the crew. He acted quickly to revive a patient and probably saved her life.
- We received the grant but now FEMA has new rules. We will receive the money in installments and we could be visited at anytime by them looking for the blue binder. It must be available for their inspection. The EPA will be involved too. We will have to show that we have spent the match as a town (\$3510.27). Captain Batty will be filling out all paperwork and working with the Selectboard as well. We may get visits from politicians. The building must be kept clean at all times. The award was announced in the local paper (digital version only).
- Debby from Magnagrip, IPA, SIES, and Clean Air may be in. We are getting 3 quotes for this installation. A lot will happen in the next few weeks to get this done.
- Denis will be taking pictures to include in the blue binder.
- There is a Chilelli mobile that needs to come out of his car.
- Training Building: Bob Marshall asked the Chief to talk to NH Dept. of Environmental Services about this. After a conversation with them, it doesn't look like there is a problem if we can prove that the landfill was closed pre 1981.
- 2019 Road Race: The Chief met with the auxiliary and they will help. This plan is slowly moving forward.
- The Fire Chief in New Boston nominated our Chief for Educator of the Year from the Fire Academy which they had already given him some time ago so instead they are giving him a lifetime achievement award on Tuesday, Sept. 25th at 6pm.
- Denis would like to get a date for a group picture. Everyone agreed on Oct. 14th at the Fire Station 10am.
- Effective September 1st – Re-certs must be NCCP for the coming season. They have done away with the challenge for nurses and doctors. It makes it harder for them now. They either have to take a 40 hr course at the academy or go to Nebraska.
