## INSPIRATION NEEDED

Everybody pays taxes and it would be good if more people were involved in spending them. Otherwise, our town is shaped by a handful of people whose vision may not speak for you.

Since the Charette in 2014, there has been lots of casual talk -- revitalizing downtown, creating a park (or a parking lot) at the Rymes property, locating solar panels on the wastewater site, expanding low-impact commerce and industry in appropriate places in town, reactivating the rail line, a light-industry industrial park, to name a few.

Revenues from the state continue to dwindle and school expenses continue to rise. Face it: We're on our own. With taxes escalating and expenses rising, it's time to start talking in earnest and converting the talk to action. The Selectboard is seeking to form and coordinate one or more committees to explore some of these ideas. If we do nothing, we are likely to become a bedroom community where residential taxpayers carry the burden of all improvements. That's hard on life-long residents on fixed incomes who hope to pass their property to the next generation. Moreover, it encourages haphazard development that won't produce the historic flavor town residents said they wanted during the Charette.

Right now there are several failed commercial ventures in the village and several properties for sale. The Selectboard would like to encourage low-impact enterprise in the village, but we need to reach out. Waiting for someone to stumble into our gem of a town is not enough. The board needs townspeople's inspiration, expertise and vision to get something going that will increase revenue, reduce expenses, expand the tax base and protect us from a downward spiral.

Volunteering doesn't have to mean many hours or lengthy commitments; maybe you have a concept that others carry forward. We need to work together. If you have ideas, please send them to the Selectboard, or come in to see us in our open time at the start of each meeting. If you have expertise in solar energy, construction, real estate, economic growth, parks and recreation, small industry development, urban planning, marketing, rail commerce, or any aspect of life that might help ... please consider approaching the selectboard to start and/or join a committee.

Let's not oblige lifelong town residents to move somewhere cheaper in their final years. Let's leave our children and grandchildren something other than a bill. Together, we can reshape our town with purpose and an eye to successive generations.

# U.S. Drought Outlook Predicts Drought Development: NHDES is Urging Residents to Conserve Water

Concord, NH – The New Hampshire Drought Management Team, coordinated by New Hampshire Department of Environmental Services (NHDES) and composed of state and federal agency representatives and stakeholders, met on July 19, 2018, to discuss drought conditions and impacts. Currently, the U.S. Drought Monitor categorizes 62% of the state, mostly in the southern half, as moderate drought and the remainder of the state as abnormally dry. Based on this development, the team agreed that the most important recommendation right now is for the public to be mindful about outdoor water use and conserving resources. Recommended steps to take include reducing or eliminating landscape watering, limiting any watering to between 7 PM and 5 AM, and suspending the washing down of large outdoor surfaces such as cars, homes and driveways. Currently, 47 community water systems have imposed outdoor water use restrictions and the number is expected to increase as drought persists.

Dr. Mary Stampone, New Hampshire State Climatologist, confirmed that drought conditions are not as severe as they were at this same time of year during the 2016 drought, but she said this drought has come on just as quickly and is more widespread. She stated that the development of the drought is a result of below average rainfall in the late spring and early summer coupled with high temperatures, while the 2016 drought was compounded by an early spring and a less-than-average snowpack. Dr. Stampone made it clear that while rain is in the forecast for the upcoming week, there is an equal chance of above or below average rainfall and a likelihood of above average temperatures for the upcoming month, meaning that drought conditions may continue through August.

Homeowners on private wells and many smaller community water systems can be more susceptible to the impacts of drought, as they often do not have the resources larger water systems have to manage drought, such as full-time staff, the technology to track water source levels, or a diversity of water sources on which to rely. Also, finances for well improvements or to drill a new well may be very limited; therefore, during a drought, these water users need to curb water use early. Conservation tips and drought emergency guidance for homeowners on private wells, community water systems, municipalities and the public may be found on the NHDES Drought Management webpage. Go to the "A-Z list" at [www.des.nh.gov](http://www.des.nh.gov) and scroll down to Drought Management.

New Hampshire has been experiencing less than average rainfall and higher than average temperatures in 2018, coming off a severe drought in 2016. According to the US Drought Monitor, 45% of the state is experiencing moderate drought, while 55% of the state remains in abnormally dry conditions. The three month Drought Outlook from the

National Oceanographic and Atmospheric Administration predicts drought likely across the entire state. As a result, the NH Department of Environmental Services recommends that communities promote outdoor water use restrictions, ranging from limiting landscape watering to times between 7 p.m. and 8 a.m. to urging restrictions on power washing, washing cars, or washing down large surfaces like driveways and sidewalks.

In 2007, the legislature adopted RSA 41:11-d, authorizing municipalities, including village districts, to adopt regulations to restrict residential lawn watering. The statute allows municipalities to restrict residential lawn watering within its political boundaries if administrative agencies of the state or federal government declare a drought condition for that region of the state. Lawn watering restrictions may be established for residential homes on private wells, as well as for residential homes obtaining water from a public water system within the municipality's political boundaries.

With this in mind, the Conservation Commission and the Selectboard would like to raise citizen awareness of this issue and urge voluntary restraint in the use of water, whether from public or private sources, until such time as the environmental crisis eases.

**Landscape/lawn watering:** Residents are urged to voluntarily limit watering till the cooler times of the day to prevent evaporation from the direct rays of the sun. Try to keep landscape watering confined between 7 pm and 8 am and then, limiting the time you water. Water users might consider alternating watering days, rather than daily watering to conserve aquifer levels.

**Outside water use:** Residents are urged to voluntarily limit the use of water for car washing, power washing or other uses that consume large quantities of water.

Despite the fact that most of us are on private wells, the fact remains that we share common aquifers with our neighbors. The Conservation Commission and the Selectboard urge residents to take voluntary steps to reduce their water consumption and educate ourselves to various strategies we could pursue individually to support our neighbors and the community as a whole.

## Holden Road Barn Fire

At 03:07 Sunday morning, July 22, 2018, a first alarm was struck for a barn fire at 65 Holden Road in Greenfield. On arrival the Greenfield Fire Department was confronted with a 36' x 50' barn that was fully involved. The roof and siding had completely burned away and only the post and beam structure remained. The barn was engulfed in orange flames that rose some fifty feet in the air. A second alarm was struck. Holden Road is a narrow gravel road close to the Lyndeborough line that only has four or five houses on it.

*Fully Involved*

The barn was unoccupied (no animals) and primarily used for storage. The house, several outbuildings and a camping trailer were at risk... one of the outbuildings was already on fire. There were several small brush fires that had started as well. A defensive attack was initiated to contain the fire, protect the exposures and extinguish the brush fires. Several surrounding fire departments were part of the mutual aid response including: Lyndeborough, Francestown, Bennington, Antrim, Hancock and Peterborough.

*Protecting Exposures*

Greenfield and mutual aid apparatus were successful in protecting all the other buildings and extinguishing the brush fires with the first arriving apparatus. After a short time a more robust water supply from a brook, about a quarter mile away,

*Greenfield's Mighty Ladder at Work*

was connected by 1300' of large diameter hose. At that time Greenfield raised the ladder and high volume elevated master stream on Ladder 1 and attacked the barn from above. It took nearly two hours and some 40,000 gallons of water to fully extinguish the remains of the barn.

*Not Much Left*

The 200 plus year old barn, which may have been one of the oldest in Greenfield was a complete loss. All the other buildings were protected and there were no injuries to the residents or responding personnel. The fire is of an undetermined cause and is not considered suspicious at this time.

The Greenfield Fire Department extended its sincere thanks to all our surrounding mutual neighbors who helped us bring this to a successful outcome. The photographs were taken by Peterborough Fire Chief Ed Walker.

*David Hall, Fire Chief*

## FROM THE RECYCLING CENTER

Here we are again, the season of chaos in preparation for those who are college bound or starting a new school year. We usually can provide a place for all your cast offs and/or offer a treasure to someone in need through the Mini Mall or Library. We can also direct you where the best place will be to deposit your items to make them most useful.

We would like to introduce Steve Slosek as our new co-worker. He will be our "fill in" person on an as needed basis. Welcome Steve!

We would also like to thank everyone for the compliments on the flowers. We take great pleasure in the flowers as you do.

We are aware of the uproar about recycling recently. We are able to move our materials to be recycled even if the revenues are down and some may be at a cost. Due to the top quality of our recyclables, they are sellable. Our glass goes to Keene at a cost as it has been for years. They are a host site - meaning that they take glass from certain designated areas. They store it until there are enough tons to have it ground into a usable product. We are doing well with the programs in place. Your dedication and awareness of what is required allows us to be successful with our efforts. We are proud of our work and yours. Thank You.

A project that we have waited a long time to happen has been started thanks to Rick, Mgr. of the Buildings and Grounds Dept. He has started pressure washing the building in preparation for a much needed face lift. We are very excited and looking forward to a fresh appearance. During this process some items that are on the building are being removed temporarily.

**PERMANENT HOURS:** Tuesday 8am - 4pm, Thursday 11am - 6pm and Saturday 8am - 4pm.

**HOUSEHOLD HAZARDOUS WASTE:** Collections are in Keene until October. There are information sheets available here. We will gladly answer any questions you have about your items before you take them to Keene.

### REMINDERS:

All trash must be in bags and tied closed.

All fireworks **MUST** be checked before disposal.

If you have items outside of normal kitchen trash and recyclables, you must have your items checked. This includes all metals, brush, items for the Mini Mall and Library, bicycles and lawn mowers. These items need to be checked and the history on usable lawn equipment is appreciated. All oils and gasoline must be drained from all items before they are accepted. Riding mowers must have the tires removed. When doing so it is ok to have the wheel and tire as one. Remember there is a fee for tires.

Demo/Construction debris/Bulky Waste, Electronics and Tires - Must see attendant. ALL have FEES applied.

Used Oil - is appreciated all year long for use in our waste oil furnace. Thank you for your contributions.

We strive to help make your time at the center an enjoyable and productive experience.

*Carol Burgess and the Recycling Center staff.*

## GREENFIELD HISTORICAL SOCIETY

### TOWN POOR FARMS AND TRAMP HOUSES

By  
Lenny Cornwell

During our May General Membership meeting, Steve Taylor presented a program for the NH Humanities Council on poor farms and houses. He indicated that these establishments were prevalent from about the 1830s to 1868. At first, people were housed as a penalty for monies owed. Then, the idea of having actual farms for these people - places where they could live and work - took hold. Supposedly, these farms would be as self-sustaining as possible.

The residents were paid a small sum for their labor; this money, in a lot of cases, would be used to "buy" some supplies or essential items from the towns. This system was much like the mining company's store. Realistically, very few were able to get out of debt. The slavery issue was a major factor in the decline of poor farms since some equated the housing and paying of poor people for working the farms to be the same as owning slaves.

In 1831, the town decided to provide a place for the care of its indigent citizens. The Deacon Woodward Farm was purchased for the sum of \$1,550 from William Whittemore. The sale price included the crops. No records show that the town supported this after 1868. The town must have sold the farm, and, by the turn of the century, it was used for summer boarders.

In 1876, the town spent \$110.24 for the support of several adults, one child and the burial of a person. A total of \$21.90 was paid to a man for police services dealing with tramps.

The Tramp House was located behind the Central School in the village. It was rumored that houses who fed the tramps, hobos (or codgers as they were sometimes called) were marked so the next tramp would know where to stop.

Tramps were fed and put up for the night. Usually, crackers and water were served. For heat, the tramps would cut the wood outside of the tramp house. Some 200-300 tramps were listed as coming through town for some years. The police were responsible for the monitoring, feeding and locking the hobos in the shed for the night.

In 1895, the Overseer of the Poor went to Nashua to settle with the County Commissioner. The report does not say whether the county reimbursed the town for the cost of caring for the poor.

### ADDITIONS FOR YOUR FALL CALENDAR:

September's General Membership Meeting on Friday, September 21, 2018, at 6:45 PM at the Meeting House will conclude with a NH Humanities presentation on Meeting Houses ! Look for additional details.

### HARVEST FAIR, Saturday, October 6, 2018, at the Meeting House from 9am-2pm.

Once again, the Historical Society is sponsoring the Harvest Fair, a family friendly event filled with autumn activities and an opportunity to raise funds for the Society as well as other community non-profit organizations. Refer to the town website ( [www.greenfield-nh.gov](http://www.greenfield-nh.gov) ) for details, other helpful information and a vendor application.

### 8th ANNUAL RAILROAD SHOW, Saturday, October 13th, 2018, 10am - 3pm, at the Museum and the tracks across from the Museum.

Always much to see, people to meet, and railroad souvenirs to buy ! Again, fun for the whole family.

## GREENFIELD SPORTSMAN'S CLUB

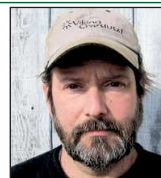

The Greenfield Sportsman's Club (GSC) thanks everyone in town for their generous support in the "Cans For Kids" program which provided enough funds to stock the pond for the "Kids' Fishing Derby" on May 26th and 27th. Furthermore, remaining funds are being reserved to develop a new camping area for the Boy Scouts.

"Cans For Kids" has moved and is now located along DPW Drive. "Cans For Kids" has been a huge success for the GSC. If anyone has a large amount of aluminum cans please contact 1946gsc@gmail.com. for voluntary pick up.

The Greenfield Sportsman's Club also extends a huge thank you to Jim Westaway for his craftsmanship, time and supplies donated to provide wonderful new signage at the George Proctor Recreation Area.

Stay tuned, Greenfield residents. The GSC has a lot more planned for this year and thanks again to everyone for your strong support.

Gary Russell  
President, Greenfield Sportsmans' Club

## FROM THE DPW ROADS DIVISION

### WELCOME TO SUMMER! HELP WANTED!

Please call or email us at the DPW barn if you see any repairs that need to be fixed on your road. We try to keep an eye on stuff all across town but some roads like dead ends do not see much traffic so we might not know about a problem unless you let us know?

Also if you see an orange cone on the side of the road we use them as markers for safety or repairs that we will be fixing ASAP! (FYI)

We have been working on our fleet of trucks and equipment, roadside ditching, grading, replacing culverts and getting ready for paving the first part of East road in August.

Can't wait to see what the 2nd half of the year brings.

Thank you!

*DPW Roads Manager, Todd Mason and the crew*

### Terms for participation in the Harvest Fair, October 6<sup>th</sup>, 2018

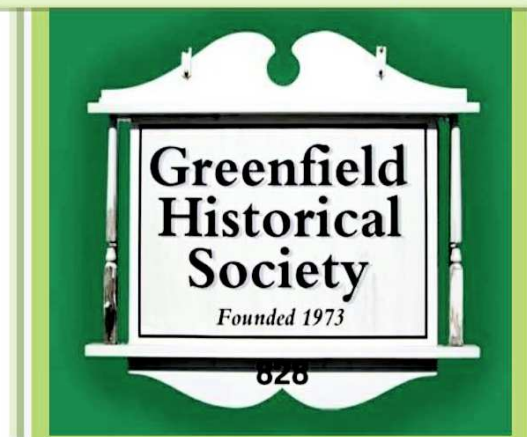

1. The Harvest Fair is a family friendly event organized by the Greenfield Historical Society to unite the community for a day of autumn activities and to raise funds to support the Greenfield Historical Society and local community Non-Profit Organizations.
2. The entry fee of *up to* \$30.00 entitles you to one 4' x 6' indoor table OR one 12' X 12' outdoor space. Spaces may be shared by more than one vendor at no additional cost. Fee is non-refundable.
3. Free Outdoor 12'x12' spaces are only available to Registered Non-Profit Organizations operating in Greenfield or within the ConVal School District.
  - To obtain a Free Outdoor Space you must provide a valid Tax ID # and disclose all items for sale, raffles or auctions that may occur during the event to limit direct competition.
  - If the Harvest Fair Committee deems participation redundant or competitive, they reserve the right to deny the application.
  - Only 1 Outdoor space per Non-Profit – All fees for Indoor Spaces Apply.
  - Non-Profit Applications will NOT be accepted after September 1st, no exceptions will be made.
4. Vendor set-up, i.e., table, chairs, tent etc. is the vendor's responsibility. Tables and Tents will NOT be provided.
  - All vendor items are to be displayed within designated spaces, not in aisles, walkways, or exits.
  - All tents must be properly staked and weighted in all 4 corners or you will void the use of the tent.
5. Vendor must indicate on application if Indoor Space or Outdoor space is preferred. Every effort will be made to accommodate your request. Vendor will be notified if your request for indoor / outdoor space can not be met.
6. Applications must be postmarked by **September 1st**, or the participant fee increases to **\$30.00**.
  - ☐ Completed vendor application form
  - ☐ Entry fee(s)– Check payable to: **Greenfield Historical Society**
  - ☐ Email Address printed clearly OR a Self- Addressed stamped Envelope
7. You will receive your assigned location and detailed instructions approximately 7 days before the event via email to the address provided OR the self-addressed stamped envelope provided with this application, if your application is not accepted your check will be returned to you by September 21st, 2018.
8. Vendor participants please note: Space is assigned on a first come first serve basis. If more than one participant applies to be in the fair that owns the same type of business every effort will be made to keep variety throughout the fair and direct competition at a minimum.
9. Set up time is 7:30 a.m. to 8:45 a.m. Saturday, October 6<sup>th</sup>, 2018. You will need to check in with a volunteer before 8:30 a.m. or you will be considered a "no show" and we reserve the right to fill your space with another vendor.
10. Vendor is responsible for their displays, providing their own cash boxes, and monitoring their own space.
11. Vendor will remove all trash, boxes, etc. from their booth before leaving.
12. The Town of Greenfield, the Greenfield Historical Society or the Harvest Fair Committee will not be responsible for the loss, theft of, or damage to vendor's items or for personal injury or the loss of money during the Harvest Fair event.
13. For more information or questions please contact Katherine Heck at [checkerboardfarm1@yahoo.com](mailto:checkerboardfarm1@yahoo.com).

## Greenfield Hike #2 August 11, 2018

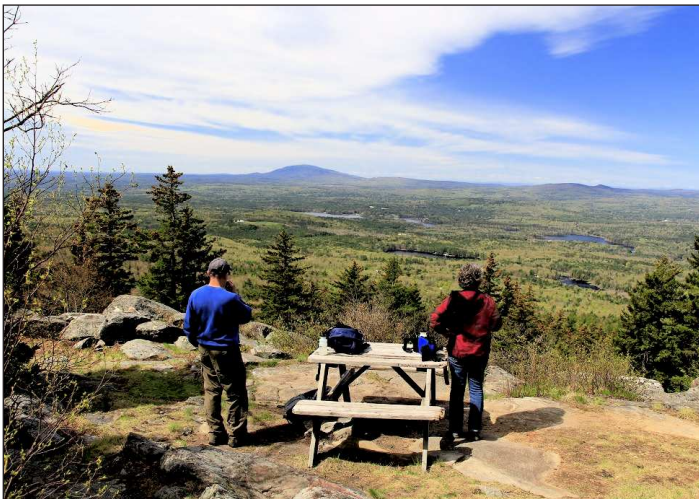

Get your hiking gear ready for a trek to the top of Crotched Mountain on Saturday, August 11. Along the way, our trail passes two cellar holes and Greenfield's version of a balanced rock. Views of southern New Hampshire at the top are stunning.

The hike begins at the Crotched Mountain trail head promptly at 10am. Follow Crotched Mountain Road to the parking area. Michael Sparling and Ken Paulsen will lead the group part way up the ADA (zig-zag) trail to a side trail that comes out to a clearing and eventually goes back into the forest where Shannon's Trail will take us to the top.

After a rest period and chance to enjoy the view. We retrace our steps back down the mountain. In the clearing, we will follow a different trail that leads to another lookout area with views west and south. The ADA trail will take us back to the parking area.

The trails are easy starting out but change to moderate the closer you get to the top. Hikers should be in good shape, bring water, and wear appropriate shoes. Approximate distance to the top is 1.4 miles with an elevation gain of 766 feet. Allow three hours to complete the hike.

If you intend to participate, contact Michael Sparling (phone 603-491-8241 or email [lasmas@yahoo.com](mailto:lasmas@yahoo.com)) so that we know whom to expect.

## Greenfield Hike #3 September 22, 2018

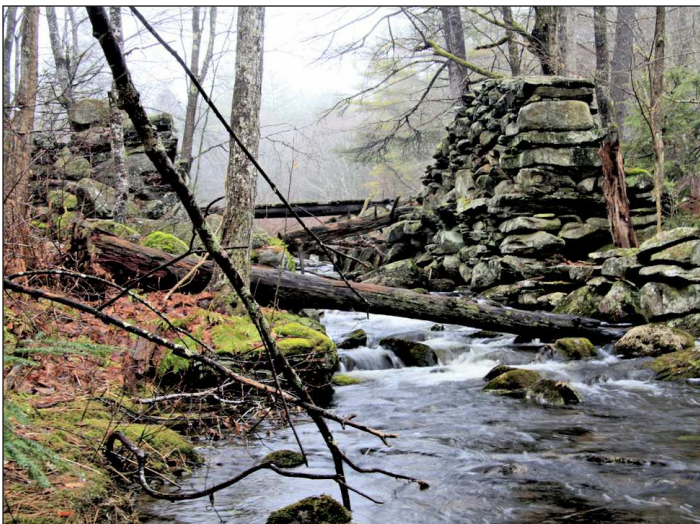

A leisurely three hour walk on beautiful unmarked trails is the focus of the third Greenfield hike. The walk follows the class six portion of Pine Ridge Road and Savage Road. You will be on private property, town forest and conservation land.

We will start at 10am from 49 Pine Ridge Road (second residence on the road). Pine Ridge becomes class VI after a quarter mile and is essentially a trail at that point. Along the walk, we will discuss how our roads came to be and why some get discontinued. You will see the stone remains of the Jake Savage home and barn. A side trek through the woods

leads to the stone foundation of the Savage and Grimes Mill. We will partially retrace our steps on Savage Road and then veer onto a maze of unmarked trails used by the bicycle club, horse riders, and walkers. Eventually, we pass the foot bridge over Rand Brook built by members of Greenfield Trails Association, an area snowmobile club, and citizens of Greenfield.

This walk is rated easy making it possible for even small children. Some trails have many tree roots and there are a few short hills. Learn about Greenfield history and enjoy a walk in the woods.

If you intend to participate, contact Michael Sparling (phone 603-491-8241 or email [lasmas@yahoo.com](mailto:lasmas@yahoo.com)) so that we know whom to expect.

## **WATER TESTING PROGRAM**

**by NHDES**

**August 13, 2018**

**7 pm in the Wensberg Room**

**Stephenson Memorial Library**

On Monday, August 13th, the Department of Environmental Services (NHDES) will be here in Greenfield presenting a program on water testing. You are invited to attend, learn about water testing, and if you so desire, receive a bottle to have your water tested. Water testing is provided by NHDES. Payment will be required when you deliver your bottle for pick-up on Sunday, August 19th at the Town Office between 1 and 3 pm. Testing must be done no longer than 36 hrs after collection which is why the pick-up time is on a Sunday. The results will be mailed.

Some of the tests available are the standard test for \$85 and just arsenic for \$15, or just bacteria for \$15. More extensive testing is also available.

We must have 15 participants in order to hold the program.

**Please register by clicking the RSVP button at:**

**<https://www.signupgenius.com/go/30e0d4caaae23a6fd0-water1>**

*This program is brought to you by the  
Greenfield Conservation Commission*

*For more info or to register by phone, call Roger at 547-3204.*

### **SPONSOR THE SPIRIT**

If you'd like to sponsor an issue of the Greenfield Spirit, please call the Town Office at 547-3442. The cost is low, and it's a great way to get the word out about your business or group, as well as an easy way to support your community. Interest has been so great that we now have a sign-up form to keep everyone's turn organized. Please call the Town Office to get on the list.
