## No Hanging Flowers This Year

It is with wistful regret that the Selectboard announces that there will be no hanging flower baskets in the village this summer.

The GIVers, who have supported the effort for years, told the Board recently that they can not continue to maintain the hanging plants because the commitment of time and energy for regular watering is just too much for its aging members.

A few in-ground plantings around town and the flower boxes under the signs at the entrance to Greenfield on Routes 31 and 136 will continue. Meanwhile, the Board extends its heartfelt thanks to the GIVers for their work in this endeavor. It's no mean feat to coordinate, acquire and maintain that number of plants.

The Selectboard would like to continue having the plants if some other arrangements can be made to assure they are properly cared for. The board is seeking alternatives. Any person or group interested in helping is urged to contact Town Administrator, Aaron Patt at the Town Office - 547-3442.

## TOWN DIRECTORY

### TOWN OFFICES

#### GREENFIELD SELECTBOARD

Executive Selectboard meetings are  
**Thurs. at 5:30pm every week unless  
otherwise posted.**

Selectboard: Margo Charig Bliss Chair,  
Karen Day, and Robert Marshall  
Town Administrator: Aaron Patt  
Email: greenfieldnhbos@myfairpoint.net  
Town Offices open: Mon.-Thurs 9:00am  
to 5:00pm. Closed to the public on Friday.  
**Please call if you need an appointment  
during closed hours.**

Office Manager: Catherine Shaw  
Tel: 547-3442      Fax: 547-3004  
Email: greenfieldnhacct@myfairpoint.net

#### BUILDING/HEALTH INSPECTOR

Inspections by Appt/as needed  
Inspector - Mike Borden    Tel: 547-0437  
Town Office Hours: Tuesdays 1-4pm  
Email: mbordenbi@gmail.com

#### CONSERVATION COMMISSION

Meets 4th Wed. of the Month at 7:30pm  
Chair: Roger Lessard Tel: 933-3130  
Email: mtking@pobox.com

#### PLANNING BOARD

Meetings: 2nd & 4th Mon. at 6:30 pm  
At the Town Offices. Normally the 2nd Mon.  
meeting is for hearings and the 4th Mon.  
meeting is for other business.  
Chair: Kat Carpenter  
Tel: 370-9147  
Email: greenfieldnhpb@gmail.com

#### TOWN CLERK (Registrations)

HOURS:  
Mon. 4:00pm to 7:00pm  
Wed. 1:00pm to 7:00pm  
Thurs. 4:00pm to 7:00pm  
Town Clerk - Dee Sleeper  
Tel: 547-2782  
Email: greenfieldnhhc@myfairpoint.net

#### TAX COLLECTOR

Mon. 1:00pm to 7:30pm  
Thursday 6:00pm to 7:30pm  
1st Saturday 9:00am to 12:00pm  
Tax Collector - Kathleen Valliere  
Tel: 547-2782      Fax: 547-2242  
Email: greenfieldnhtaxes@myfairpoint.net

#### WELFARE DEPARTMENT

Welfare Director: Leah Fiasconaro-Conway  
Walk-in Hours: Tues- 5:00pm to 7:00pm  
Email: greenfieldnhwelfare@gmail.com  
For Appts: 547-3442  
Emergency assist: Call Police at 547-2525

### The Greenfield Spirit

The Greenfield Spirit is published  
6 times a year by the Town of Greenfield  
Selectboard's Office at PO Box 256,  
Greenfield, NH 03047.

Tel: 603-547-3442    Fax: 603-547-3004

Graphic Designer: Karen Day

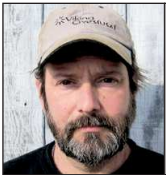

Editors: Margo Charig Bliss,  
Karen Day, Robert Marshall,  
Aaron Patt, and Catherine Shaw

#### To submit articles to the Spirit:

E-mail text to: GreenfieldSpirit@gmail.com,  
or drop off typed articles to the Town  
Offices. Also, please send in photos, arti-  
cles, event announcements, news of the  
town, poems, drawings, historical info,  
etc., with the name of the writer and/or  
photographer. Thanks!

*All opinions in this publication are those  
of the authors and do not necessarily  
reflect the views of the Selectboard and  
may not necessarily represent any town  
official or department.*

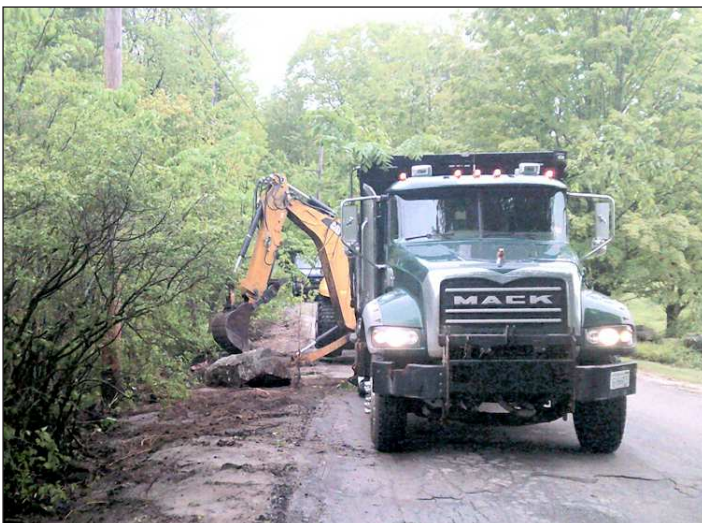

## FROM THE DPW ROADS DIVISION

Welcome to summer! This first part of the year, we have moved into high gear. The New Boston Rd ext. 60 (inch) culvert was installed and is working fine! We are working on grading/cuff over the gravel roads in between the heavy spring rains that we've had. We have started ditching and brush cutting. We talked to dealers and looked at the pros and cons of buying a wood chipper instead of renting one. And we went to the Greenfield planning board to get permission to cut brush and dead trees on scenic town roads.

We are working on getting the road ready for phase 2 road paving on East road. We have ditched both sides and are getting ready to start replacing old culverts soon. We hope to start paving in late August or September. We are also doing a big job on Coach road to fix a re-occurring wash out problem by adding catch basins to slow down the speed of the water runoff that comes down the hill. We also will replace a large culvert on Dunklee Hill Rd. that has failed soon.

We've talked to Ken Paulsen and Mason Parker from the Planning Board about the (CIP) concerning our gravel roads plan. The idea is to add new gravel each year with a warrant article to get these roads back in shape! It would be similar to the way we repave roads each year with a warrant article.

We are going to pick up a truck load of cold patch to fix the pot holes on paved roads. I have also talked to some guardrail companies about pricing on installing them on some bad curves that are a danger in the winter time.

The yearly street sweeper was in town on May 23rd so the town would look good for the Memorial Day weekend.

I need your help. If you have a problem about something on town roads or do not understand, please call us or stop in to talk to us at the DPW. If we do not know about a problem how then can we help you?

*Todd Mason  
DPW Road Manager  
And the Crew*

## SPIRIT EMAIL ADDRESS

There's a new way to get your material into the Spirit. Due to the tremendous amount of email that comes to the Town Administrator, the Selectboard decided to make a special place just for Spirit emails. When you send in your articles, photos, event announcements, news of the town, poems, drawings, historical info, etc., please send it to this new address specifically for the Spirit.

**GreenfieldSpirit@gmail.com**

This email will be checked regularly to retrieve your Spirit submissions.

## DON'T FORGET TO LICENSE YOUR DOG!

It's the Law! RSA 466:1a

Late fees will be assessed beginning June 10th.

Civil Forfeitures will be sent out mid month.

What does that mean to you?

If you haven't licensed your dog you will be assessed a \$25 fee, a processing fee and the regular dog license fee; bringing your licensing cost to over \$40 per dog!

Thanks so much for helping keep our town and our animals safe!

## BUILDINGS & GROUNDS DIVISION

Spring is passing quickly, and summer is knocking on the door. I realized that's hard to believe with the weather that we have been having. Spring cleanup is now complete on all our municipal buildings and Jeremy has done a great job cleaning up after the winter mess. The flower beds are mulched, plantings are in the ground and once again we can enjoy the smell of fresh cut grass. There is a sense of pride when you drive into this little town and see all the flags on the poles and the well-groomed municipal buildings.

At the Recycling Center, the 5 new doors for the recycling windows have been built and installed. I have a bit more work to do on them such as installing weather stripping along the bottom and giving them their final coat of stain. The staining will be completed when I finish staining the building over the summer. The new doors should help to cut down on drafts in the winter as well as a needed aesthetic upgrade to the building.

In one of the early springs storms that blew through the area, the halyard on the flagpole at the Library was broken and the flag destroyed. This is one of those odd projects that can be very hard to find a contractor to help you fix. Thanks to Yankee flagpole out of Lyndeborough, a new halyard and counterweight was strung and a brand new 6' x 10' flag installed on the pole. The process required a bucket truck to complete the repairs. It was nice to see a flag flying again at the Library in time for the Memorial Day observance.

At the Town Office, Jarvis Adams moved the water faucet in the

rear of the building to a lower position which should make accessing and turning the water on a bit easier and safer for the community gardeners. Once this was moved, I boxed in the new waterline and put in a small door to access the shut off valve. All these little projects and day to day chores add up and really keep me busy.

Oak Park received its routine spring cleanup and maintenance. The track was raked and groomed, the basketball hoop area swept off, the concession stand cleaned, and the Pavilion spruced up. Under the Pavilion, the bird netting was inspected and found to have survived the winter without any damage. After being up for a year, I was curious how it would hold up to some of our harsh winter conditions. The little concession stand was cleaned from top to bottom and prepared for the rental season. This is no small feat and, in most cases, takes a couple of days to get this building prepared. Greenfield is so lucky to have such a great facility that it can offer to people for their special events.

In the end of May, I sat down with Ken Paulson and Mason Parker to discuss the CIP (Capital Improvement Plan) for the Building & Grounds Department. Oak Park was one of our main topics that we discussed. As I stated above, this is a great park, but its age is starting to really show in many areas. In our discussion, we talked about replacing some of the playground equipment, upgrades and repairs to the tennis court, removing some of the big pine trees around the track, and improvements to the baseball field. I would like to have a meeting in September or October, open to the public, that would help me to gather information on the direction you would like me to go in with this great little facility.

Sadly, this year, we did not have any qualified lifeguards answer our ads for guarding at Sunset Lake. As we continue to try to find lifeguard coverage for the season, it's important for parents to know that the beach will be unsupervised.

### What does this mean:

- The buoy lines will still be going in the water to help identify the deep and shallow areas. I have been asked by the Selectboard to bring the shallow buoy line in a bit further to help parents identify anything beyond roughly 3' deep.
- At this time swim lessons won't be offered
- The porta potty has been put in place for the season.
- The dock will not be going in the water at this time for safety and liability concerns.
- Swimming will be at own risk.
- I will continue to monitor the beach and keep it cleaned and groomed the best I can.

Many of the local swimming areas around us are struggling with the same issue. Hopefully we can still find someone in time to salvage the season and help guard the beach.

I hope everyone has a great summer!

*Rick McQuade*  
Building & Grounds Manager

# Is there Arsenic in your drinking water?

**DO YOU LIVE IN NH?**  
**DO YOU GET YOUR WATER FROM A PRIVATE WELL?**  
**THEN YOU MAY HAVE**  
**ARSENIC**  
**IN YOUR DRINKING WATER.**

**4 out of 10  
homes in NH  
get their water from  
private **WELLS****

## What is arsenic and why is it dangerous?

Arsenic is a chemical that is naturally found in the environment. Even though it is natural, it can still be very harmful to your health. If you drink or cook with water that contains arsenic, then you could develop health conditions such as:

- ❖ Bladder cancer
- ❖ Other cancers like lung cancer, prostate cancer, and liver cancer
- ❖ Heart disease and diabetes
- ❖ Brain and nerve diseases
- ❖ Effects on brain development and decreased IQ in children

## How do I know if my well water has arsenic?

**1 out of 5  
wells in NH may contain  
dangerous amounts of  
**ARSENIC****

***Bottom line: you won't know it's there unless you test for it.***

Arsenic has no smell, no taste, and no color. You can take a water sample from your tap and send it to a lab for testing. Most well water testing will look for arsenic and other dangerous contaminants. You should test your private well every 3 years.

The NH Department of Environmental Services (DES) provides a list of companies that offer water testing:

<http://des.nh.gov/organization/divisions/water/dwgb/nhelap/documents/labs-private-wells.pdf>

## What can I do if my water contains arsenic?

You can treat the water in your home to remove the arsenic. You can use simple filters on your kitchen tap or more complicated systems to treat all the water in your home. The NH DES provides information on treating private well water for arsenic and other chemicals:

<http://des.nh.gov/organization/commissioner/pip/factsheets/dwgb/documents/dwgb-3-2.pdf>

**For more information  
on well water testing  
in NH, please contact  
the New Hampshire  
Public Health Labs:**

29 Hazen Drive, Concord, NH 03301  
(603) 271-4661  
<http://www.dhhs.nh.gov/dphs/lab/biomonitoring.htm>

**WATER TESTING PROGRAM**

by NHDES

**August 8, 2019****7 pm in the Wensberg Room  
Stephenson Memorial Library**

On Thursday, August 8th, the Department of Environmental Services (NHDES) will once again be here in Greenfield presenting a program on well water testing. You are invited to attend, learn about well water testing, and if desired, obtain a kit in order to have your water tested. Water testing is performed by NHDES. Payment will be required when you deliver your kit on Sunday, August 11th at the Greenfield Meeting House, 776 Forest Rd. between 1 and 3 pm. Samples will not be accepted outside of these hours, as they must be kept under refrigeration. Testing must be done no longer than 36 hrs after collection which is why the pick-up time is on a Sunday. The results will be emailed.

Tests available are the standard test for \$85, just arsenic for \$15, or just bacteria for \$15. More extensive testing is also available at an additional cost.

We must have no fewer than 15 participants in order to hold the program.

**Please register by clicking the RSVP button at:**

**<https://www.signupgenius.com/go/30E0D4CAAEE23A6FD0-water2>**

*This program is brought to you by the  
Greenfield Conservation Commission.  
For more info, call Roger at 933-3130.*

## READYNH.GOV

Not to be morbid, BUT, there have been A LOT of emergencies going on around us; from flooding/fires/tornadoes, to Amber alerts to school shootings and more.

We, in Greenfield, have been lulled into thinking that it can't happen to us. I'm sure that most of the people affected by these events thought the same.

We are living in the age of connectedness (am not sure that's a real word but you know what I mean). Soooo, go one step further and get connected to the NH Alert system. This system will NOTIFY you of any serious events that may affect you or your loved ones.

Type into your browser "readynh.gov". This will get you to the NH alert system page. Scroll down and click on the RED NH Alert button. You will be able to register your phone (s), and e-mail so that you will get notified if a serious event occurs in your town, and/or state. Takes all of 5 minutes and you're done.

**This is one of those things you do because you care.**

*Greenfield's Emergency Management Team*

## GREENFIELD HISTORICAL SOCIETY NEWS

### MIRROR, MIRROR ON THE MOUNTAIN ( Mirror Lights from Crotched Mountain )

By  
Lenny Cornwell

People seemed to entertain themselves in the 1890s with all sorts of activities- activities that also included lots of socializing. Something that seemingly is in the past in our electronic world.

One event of 1893 - an interchange of signals by the mirror flash ( known as heliographs ) - incorporated several activities all in one . Mr. George E. Mansfield was responsible for co-ordinating the arrangements for this. After taking carriages provided by George Putnam's hotel, guests from there as well as other hotels arrived at the Mountain View Farm (\* Refer to the April/May, 2019, Spirit . ) and hiked up to the summit of Crotched Mountain on the Franconia side. Signaled greetings were sent to several towns - New Ipswich, Mount Vernon, and North Conway. Conditions of the day were quite smokey, thus blocking out Mt. Kearsage in Warner. The greetings were returned.

A lunch was served in the park and a photograph of the group was taken. A flag staff with a top mast was erected on the site of the Signal Station of the Coast Survey.

A flag with forty-four stars was raised by George Mansfield and several others. Three nationalities were present. Individuals representing the public schools, real estate, mining, manufacturing, transportation and agriculture were all in attendance. A guest book was set up at this park on the summit. Professor Quimby of the Coast Survey pronounced the view from Crotched Mountain the third best in the state, with one being able to see Mt. Washington, the White and Green Mountains, and Boston Harbor. As the party departed, a flag of white with a red center took the place of the United State flag; this flag served as a symbol of peace and prosperity.

Plans were made to visit other towns in the area at a future date. An exchange of greeting signals would be sent in the hopes of getting to know each other better. The Peterborough High School ( now Peterborough Elementary School ) and portions of Peterborough were very prominent from the view atop Crotched.

In August of 1893, flashes were thrown to all of the places in the circuit of sites. A communication with the Grand Hotel in Mount Vernon had very interesting effects - Mt. Washington and its building could plainly be seen ! A huge, electrified search light had recently been put up at Mt. Washington and the light could be seen for over 100 miles. It could easily be spotted at night on Crotched Mountain. A guest book or "Pioneer Register", as it was called, was filling up fast. Names recorded were from all over the coun-

try. Another news item referred to someone taking the compass from the park.

Looking beyond 1893, there is no mention of mirror flashing. Was this perhaps a passing fad? The notation of all of the views seen from atop Crotched Mountain gives one the sense of just how open the landscape was at that time- due to logging, farming, and burning wood for heat and steam boilers. The visibility of the search light on Mt. Washington for 100 miles indicates how dark the night sky was before light or air pollution.

Material for this article was resourced from The Peterborough Transcript newspapers of 1893.

## FROM THE RECYCLING CENTER

School's nearly out for the summer and we now have all kinds of outings, celebrations and vacations to look forward to.

We are here for any questions you may have and we can offer suggestions that you may not be aware of.

Have you noticed?? We have new signs! Loads of thanks go to David Bridgewater and Rick McQuade from Buildings and Grounds. David built the frames and Rick made the back board, painted and mounted the signs, and installed them on the building. Rick is also working on new doors for the recycling windows. We are looking forward to seeing all this come together. We will also finish the staining of the building this year plus we have several other projects in the works.

The sorting we do here with our recyclables assures us that our materials ARE being recycled. The news media segments on the contaminated materials that are going to the landfills are from SINGLE stream collections. We do not do single stream which means we do not have contaminated materials. For those of us who stayed with the sorting method, we are way ahead of the single stream promises. Several of their selling points were; this is the easiest way to increase recycling, this will lower trash costs, and this is the future of recycling. It might be a way to increase recycling but if the materials are contaminated, the loads are rejected which means the cost of trash does not go down when the recyclables are not sold. The future seems dim for single stream.

No matter what way you want to recycle to control costs, you must have a controlled environment to do so. We are doing the "right thing" in the "right way" and will continue to do what is good for our town. We appreciate your efforts and loyalty to recycling.

**PERMANENT HOURS:** Tuesday 8am - 4pm, Thursday 11am - 6pm, Saturday 8am - 4pm

**WE WILL BE CLOSED THURSDAY, JULY 4TH  
FOR THE HOLIDAY.**

**HOUSEHOLD HAZARDOUS WASTE:** Collections in Keene have started. You have 3 times each month available for you to go. The schedule is posted and there are hand outs for you to take with you.

### TAKE NOTICE:

• **We are NOT accepting any propane tanks that are larger than the one pound cylinders. We have NO way to dispose of the bigger tanks as we do not accumulate the**

quantity needed for a pickup. We will continue to try to find an independent outlet for you but after months of research, no options have been found. Your best choice at this time would be to buy your tank at a store who provides the vending services.

- **Any fee based items must be paid for before dropping them off.**
- **Please drive slow. Moving children and vehicles are everywhere here and on the public road.**
- **Please have your load secured and covered as you transport it.**
- **All spent fireworks must be checked and we cannot accept any unspent or unused fireworks as these present a safety hazard.**

### REMINDERS:

- All trash must be in closed bags.
- Metals, Brush, Mini Mall, Library items need to be checked. Demo/ bulky items may have fees.
- Please have your load checked if you have items other than normal kitchen trash/recyclables.
- Please bring your own muscle power to unload heavy items.
- Lawn equipment/bicycle – if usable please let us know.
- We collect used, uncontaminated motor oils all year long.
- Only glass bottles and jars are accepted in the glass bin. "Other glass" need to be deposited in the green metal barrel.

We hope everyone has a great and safe summer.

We are always open for suggestions and look forward to seeing you.

9. Sunset Lake Beach is a **NO SMOKING AREA**.
10. The beach is open to the residents between the hours of 7:00 a.m. and 10:00 p.m. Presence outside of these hours is considered trespassing.

**COMPLAINTS AND COMMENTS** should be directed to Rick McQuade at 325-7346.

**EMERGENCIES AND VANDALISM** should be reported to the Greenfield Police Department immediately by dialing 911.

## CHANGES THIS SUMMER AT SUNSET LAKE

There will be no lifeguards at Sunset Lake Beach when it opens this summer. Lifeguards are few and far between this year, and the town had no qualified applicants. Other towns are experiencing the same shortage.

We are working on hiring people for the summer, but in the meantime, residents are free to swim at their own risk and the beach will be signposted that way. There is a possibility that the beach will be without lifeguards all summer.

The Town will put out floatlines to help keep people safe, but the Board opted not to put out the floating dock without lifeguards present. It is a temptation to swimmers who may not have the skill to reach it safely, and the raft sometimes encourages rough-housing and dangerous play.

Families are encouraged to pay close attention to children in the water and to keep small children within the kiddie swimming area. Beach patrons also are asked to keep their area of the beach tidy and clean and to take out any trash they create while visiting the beach.

Remember that a town facilities permit is required to park at Sunset Lake and the Police Department will patrol as usual. Please call Town Hall (547-3442) for more information.

Have a safe summer.

## THE FIRE CHIEF'S CORNER

Greeting from the Fire Department, after a long waited winter, the new vehicle exhaust system has been installed and is up and running. The installation took approximately 7 days and never interrupted the normal day to day operations of the Department. Thank you to Lieutenant Simmons who shuffled the apparatus in and out of the building each day, so the work could be performed. The system has a single large exhaust fan that captures all of the fumes from the vehicles. Attached to that fan, is the main trunk line that runs through the building. At each vehicle, a long semi ridged tube drops off the main trunk and runs down to each of the trucks exhaust pipes and a special boot connects to the exhaust pipe of the truck.

When the vehicle is started, a sensor in the system turns on the exhaust fan pulling all of the fumes and vapors from the apparatus, keeping the fumes from blowing out into the apparatus bay. When the truck is pulling out of the station, the hose runs along a track and just as the apparatus leaves the station, is ejected off the vehicle. It really is a very simple but effective system. When the trucks are returning from

a call, one of the firefighters places the exhaust tube back on the truck right before it enters the apparatus bay capturing the fumes before the truck is inside. It's a great system that will definitely help in keep the firefighters safe and healthy.
