## GREENFIELD HISTORICAL SOCIETY

### Roads and Highways, part III

To help small towns improve their roads, the state granted Town Road Aid (TRA) money. This helped make roads safer for motorized vehicles. Some of the improvements involved taking the sharp corners out or widening the travel portion of the roads.

Each state district had a TRA Supervisor. Greenfield's supervisor was out of Swanzy. The last person serving in this capacity when the program ended in the 1980's was Elwin Bailey, Jr. His father had been Greenfield's Road Agent for quite a few years, off and on.

Tar was used as a quick, cheap way to build a solid road surface. The tar was sprayed on the roadway in order to penetrate the gravel roads. It soaked into the top to a depth of about one inch. The tar was allowed to sit for a few days before driving on it was permitted. Next, a layer of sand was laid over the tar to soak up any excess and to keep the tar from "bleeding" through, creating slick spots.

Sometimes, the tar was sprayed out into a windrow of sand. Then, a grader worked it back and forth in order to mix the road covering of tar. This would be rolled afterward and lightly sanded. A hard surface was achieved at a cheaper cost than that for hot top. Every few years, this would be spray-sealed with tar again and lightly sanded. The grit would be pounded into the layer of tar with a roller to make a longer-wearing surface.

The actual coal tar was a good product for these roads. It was tough and the coal tar really glued everything together. After it was regulated out of use, a water-based emulsion was substituted. This emulsion was not as sticky and it didn't adhere to the roads as well. Applied at a thinner rate, the water-based emulsion did not hold the small rocks. Stone chips were better than sand, but this proved more costly.

A lot of roads passed between or in front of houses and barns. Some of these buildings were so close to the road that modern travel made it scary

to step out the door. When these structures were built, horses and foot travel were the mode of transportation. Also, the roads were basically wheel ruts and not very wide.

\*\*\*\*\*

Speaking of barns... Plans for the Society's barn are progressing. We are working on various fund-raising activities. Donations are always welcome. We are pleased to announce that some have already been received! If all goes well, we would like to have the footings and frost walls poured this fall and continue with fundraising towards the total goal of \$60, 000 and the building of the remainder of the barn.

Look for the Greenfield Historical Society's exhibit at the Blueberry Jamboree at Oak Park on Saturday, August 7th. In addition to the displays, we will also be doing a 50/50 raffle. The lucky winner will have some money for summer fun, and we will be that much closer to the completed barn.

The Society's Museum will be open on Saturday, August 28th and on Saturday, September 25th from 11 AM to 1 PM. Membership dues may be paid by mail or at the Jamboree. The Society's address is: P.O. Box 316/ Greenfield, NH/ 03047. To receive more information or to see the museum, call Lenny at 547-2198.

## Recycling Center News

Welcome the long days and heat of summer! Please take a minute to rinse your recyclables before bringing them to the center. The staff will really appreciate your efforts to reduce the odors in bottles, cans and plastics by using a small amount of water to rinse them before putting items in your recycling bins to bring to the center. Since we have no running water available at the recycling center, smelly recycling bins cannot be rinsed, and the tables that catch the recyclables are washed with water from the water dispenser and chemically treated. Keeping odors and bugs down makes the recycling center more pleasant for everyone.

The roadside cleanup day that took place in April was a great success and

### *Recycling continued from page 3*

because of the response from you all, the town collected 1.16 tons of debris. Thanks goes to Monadnock Waste Disposal for the donation of the dumpster, to the Conservation Committee and the GIVers for their time and the blue bags mailed to residents, and a shout out to Conrad Dumas and friends who brought in a dump truck load of debris, by far the largest single contribution to the dumpster. Every bit of clean up helps, and to those that sorted roadside debris for recycling (and there were a lot of you brave souls), our hats are off to you. We'd also like to mention the people that pick up along the sides of the road year round. Your efforts are always appreciated and not ignored. Thanks!

According to the Northeast Resource Recovery Association website ([www.nrra.net](http://www.nrra.net)), scrap metal recycling is alive and well, with revenues to be made by the towns that participate in their program. Greenfield has recycled 10.27 tons of scrap metal this year and has been paid \$1153.08 for it. Scrap metal recycling is beneficial for other reasons as well, "because it conserves limited landfill space by removing it regularly, and it conserves natural resources by replacing the need for virgin raw materials needed to produce

new metal goods with recycled scrap. Recycling one ton of scrap metal saves 1400 pounds of coal and 129 pound of limestone." (NRRRA fact sheet, 2009). Greenfield usually has two to three scrap metal pick ups a year, and the 10.27 tons we recycled is the first time it has been picked up this year.

At the Annual Recycling Conference held in June 2010 and hosted by the NRRRA and New Hampshire the Beautiful, our neighbor Frankestown was recognized as having the most (recycling) tonnage per capita through the NRRRA for a population between 1001 and 5000. That's our category, folks, so let's see if we can get the award next year!!!

Finally, it's been three years since we had such a great success raising funds for the purchase of a skid-steer for the recycling center. Jezebel (my name for the forklift) continues to limp along and need expensive repairs. She could still net some money if sold when she is replaced with a skid-steer, so stay tuned for another fund raiser in September or October. Thanks to all of you for your support and commitment to recycling!

### STILL GOOD SHED AT THE RECYCLING CENTER

If anyone has books and other treasures they would like to give to the Recycling Center Still Good Shed, could you please take a minute to place them on a shelf neatly?

Our attendants are very busy keeping up with the routine they are responsible for and don't have a lot of time to spend in the sheds. Books and treasures in GOOD useable condition will allow someone else to enjoy them. Thanks very much.

## GREENFIELD TRAILS ASSOCIATION NEWS

Greetings from Greenfield Trails Association!

As I sit here on the couch and recover from my recent knee surgery, I was secretly and unanimously nominated by my humorous fellow members to quickly write to y'all to tell you what we've been up to in the last year. (Nothing like adding insult to injury- thanks, guys... I'll be remembering this!)

Greenfield Trails Association (GTA) takes great pride in the hard work of trail maintenance, mostly because it involves sweat, volunteerism, and a few smashed thumbs from hammers. Since 1999, GTA has worked diligently to maintain the vast network of trails that exist in Greenfield and, in some cases, connects to other town trails that expands further the enjoyment of users. Maintenance includes clearing overgrowth, raking out sticks and debris creating clear paths, using environmental friendly techniques to reduce erosion by runoff or overuse, building bridges to protect brooks and wetlands, to just simply taking out an obstructing fallen tree from a crazy ice-storm. Whatever it is, the end result is to allow outdoor enthusiasts to enjoy a great blessing of Greenfield.

Last year, Spring trail clean-up took extra long because most networks took a huge hit from that crazy ice-storm of December 2008. Some trails even needed to be rerouted to avoid treacherous obstacles. And to complicate matters, the rains came and stayed for most of the Spring and Summer. However, in Autumn, Mother Nature finally took pity on the soggy shoe collection amassing by the doorsteps, and

allowed most trails to be dry, open and passable.

Autumn's beautiful hikes, mountain biking, horseback riding, and trail runs were short and sweet as Old Man Winter quietly blew in an early blanket of snow for blissful snowshoeing and XC skiing. And now the beautiful weather of Spring has virtually allowed GTA to come full circle, and return to where we left off last Autumn. Tookie-Tookie!!!

Currently GTA is working with landowners to obtain permission to maintain and upkeep current trails as well as set long-term goals so the next generation of outdoor enthusiasts will be able to enjoy them as much as we do. In August, GTA traditionally assists the organizers of the annual Hampshire 100 Mountain Bike Race where proceeds benefit our local Crotched Mountain Rehabilitation Center. However, this year not only will GTA be helping with trail preparation for this race, but it has also been given the honor of hosting the last, and most vital, feed station. Please feel free to contact me- The Gimp-on-the-Couch at dakbguinn@yahoo.com or on my cell (603) 547-5581, or John Hopkins at (603) 562-6690 for questions or membership information. New faces and ideas are always welcome!

## MONADNOCK WELLNESS FESTIVAL

"Help Yourself!" to the Fifth Annual Monadnock Wellness Festival

All Greenfield residents are cordially invited to attend the Fifth Annual Monadnock Wellness Festival, to be held on Saturday, September 25, from 9:00 AM to 2:00 PM in downtown Peterborough. The event is hosted by the Monadnock Rotary Club and the day's activities are geared to engage all residents in becoming more aware of healthy lifestyle choices. This free, fun-filled event will feature the theme "Help Yourself!" with special exhibits and activities dedicated to healthy food choices and cooking demonstrations. New to the Festival this year will be activities designed to better understand and involve pets, in particular dogs, into a healthy lifestyle. The festival continues to offer free health screenings, a broad array of health-focused vendor exhibits, educational programming, entertainment, and activities for people of all ages.

The Festival again will offer the opportunity for attendees to sample savory and healthy soups in a fun and delicious soup competition. Attendees can enjoy samples of the best soup the Monadnock Region has to offer and the chance to cast their votes for "Best Soup" and "Best Presentation."

Thanks to community participation and the support of Festival sponsors and exhibitors, the primary beneficiary of this year's event will be Monadnock Healthy Teeth to Toes (MHTTT) program. The Monadnock Healthy Teeth to Toes (MHTTT) program exemplifies a holistic approach to wellness for children through an interactive educational program within the ConVal school district.

## SPIRIT SUBSCRIPTION

Many people, who have moved away from Greenfield, have expressed an interest in receiving the Spirit to keep up with what is going on in town and to learn about their friends. Of course, printing and mailing the Spirit is an expense for the town, so we have decided to make it possible for non-residents to buy a subscription to the Spirit. Residents may also subscribe so that they may have the Spirit mailed directly to their homes.

Address \_\_\_\_\_

City \_\_\_\_\_ State \_\_\_\_\_ Zip \_\_\_\_\_

The cost for a one year subscription to the Spirit is \$6.00 for non-residents and \$4.50 for residents. Please send this form and a check made payable to the Town of Greenfield to:
