NOTES:

The CIP schedule for replacement of Police Cruisers is after 5-6 years of service. However, if the condition and maintenance of a cruiser warrants, an extension of the replacement timeframe is possible, if agreed upon by the Police Chief and Board of Selectmen. This should allow a spread of purchase cycle to be implemented if a cruiser remains in good condition. Police cruiser historical trends indicate typical usage of about 21,000 miles per year. Replacement of cruisers would therefore be necessary between 100,000 and 120,000 miles.

Actual cost figures have not been obtained. Estimated cost is based on Town of Hancock town report for 2014 town meeting, Article 6, for a (Ford) sport utility police cruiser that includes purchase and outfitting.

The Police Vehicle CRF has \$10,000 funding from prior years.

NOTES:

Greenfield Fire Department Capital Improvement discussion conclusions discussed on 6/23/2015, 7/06/2015, 7/26/2015

Policy Statement - Vehicles to be replaced will be completed using newer, used items whenever possible. Expected life of vehicles is 25-30 years less age of truck at time of acquisition.

Capital items (excess of \$5K) anticipated disposition:

Rescue one boat

Not scheduled for replacement in this planning horizon

1985 E-one Pumper

General overhaul to extend pumper life 8-10 years. Use \$ in Fire/Rescue Apparatus CRF

1977 Dodge Forestry Pickup

Replace with used 4WD diesel cab and chassis. Transfer bed from Dodge truck. Use \$ in Fire /Rescue Apparatus CRF

1988 International Tanker

General overhaul to extend tanker life 8-10 years. Use \$ in Fire /Rescue Apparatus CRF

1989 Chevy Crew Cab w/Utility & Rescue Equip

Replace in five years with used vehicle expected cost \$25K to \$30K

1988 Ford Rescue/Ambulance

Replace with a gently used vehicle in five years with expected cost of \$100K in 2015 dollars and \$112k in 2020 dollars

Turnout gear

Replace four sets in 2016 and 2017. Each year thereafter will be two sets beginning in 2018 at 2016 cost of \$4,000+.

Considered as a budgetary line item after 2017.

Extrication equipment

Replace with new equipment (may be sufficient funds in CRF for 2016).

PB Priority items marked "D", while important in the overall upgrade of the fire department, were considered less critical in light of other GFD projects and the funding needed for other town departments.

The Fire / Rescue Apparatus CRF will have \$128,000 by the end of November 2015

The Fire / Rescue Non Apparatus CRF will have \$7,500 by the end of November 2015

NOTES:

Current cabinet is getting very full. A small portion of the documents can be moved. Lack of physical space and weight of fire proof cabinets are restricting factors.

Total	\$14,000				\$14,420									\$14,420

NOTES:

The new workspace proposal has been deferred because more study is needed for reconfiguring offices for town administration. Until this study is completed, it is not possible to obtain a realistic estimate for any costs associated with the project. The previous CIP suggested a study to commence in 2014 which was not done. Reconfiguration of office space is needed for customer/resident privacy and confidentiality.

CIP Data for 2016 - 2025 / Administration

Project	Est Cost in Today's \$	Dep't Priority	PB Priority	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	Total

Total	\$111,000			\$105,150	\$12,199									\$117,349

NOTES:

Item #1: Propane stove replacement is needed as stove has pilot light with no electronic ignition.

Item #2: The buildings and grounds manager uncovered problems with some of the stained glass windows.

Item #3: Since the town office is on the list of historical buildings a grant needs to be investigated for funding.
The tower may have to be changed back from modern siding to clapboard before a grant could be approved

CRF for town building maintenance will have \$25,000 by the end of November 2015

NOTES:

Priority 1 This item has reached a critical point. It has been on prior CIPs but not addressed. Temporary library closure could be a very real outcome.

Priority 2 The project will result in lowered operating costs.
Approximately \$6000 is anticipated to be raised through Merrill Trust Fund revenues

NOTES:

It is intended that all town paved roads be on a 10-12 year cycle for resurfacing. As each road comes up for consideration, actual cost estimates will have to be solicited as part of the budgeting cycle.

The order of paving may be impacted by culvert replacement considerations, engineering opinions and conservation requirements.

Likewise, the estimated cost in today's dollars could be impacted by current petroleum prices, actual footage of the project and unforeseen environmental restrictions.

NOTES:

10 Wheeler was replaced in 2013. Cost data reflects committed payments for next four years

A used trackless MT or a reasonable substitute should be investigated as there is limited sidewalk space in town.

Study the possibility of a grader overhaul to extend its life similar to what the Fire Department is doing.

Highway Equipment CRF has \$20,000 with no new funding in 2015.

Used equipment for priority items # 2, # 3, # 5 and # 7 should be considered.
Paving bid was received from Sullivan Brothers in 2013 for approx. \$3200. Additional work needs to be done to minimize erosion.
Our current compactor and box is owned by MDS.
Deferred items ("D") require more study and cost/savings analysis

The Recycling Center Facilities and Equipment CRF will have \$300 by the end of November 2015
